

# We deliver trust by the tankful.

Quietly leading the industry for over 70 years.

**For over 70 years**, Highway Transport has been delivering products, services, and solutions for our chemical industry partners throughout the U.S. and Canada.

With every promise made and kept, our reputation for safe, reliable bulk liquid transport has quietly grown. So has our reputation for customer-centric service and innovative logistical solutions.

We're excited to bring this tradition of proven, award-winning performance to a market that shares our commitment to hands-on, skilled professionalism – **Pittsburgh.**

# Our people. Our fleet. Our difference.

---

As a company built on safely transporting cargo, we know our drivers are the heart and soul of our business. And we're proud to say that they're the most experienced, dedicated tanker truck drivers in the industry. We see them – and treat them – like family. Which helps explain why our driver retention is well over twice the industry average.

When it comes to our equipment, we take pride in maintaining one of the safest – not to mention the brightest and cleanest – fleets on the road. With a growing fleet of more than 500 tractors and over 1,000 trailers, we have the capacity to handle all your bulk liquid shipping needs. And with specific calendar and mileage markers in place to ensure peak performance, you can be sure each unit is always in prime operating condition.

## ○ Technology + transparency = trust.

We use the latest transportation technologies to increase productivity, security, mobility, and communication. This includes our proprietary TempTrack™ technology that gives real-time location and temperature tracking of materials 24 hours a day.

## ○ Safety first. (And second, and third...)

Our commitment to safety – both on-site and on the road – is second to none. From strict adherence to chemical management guidelines to rigid training protocols to oversight by teams of experienced internal auditors, we stop at nothing to keep our people and our communities safe. This focus has earned us the industry's prized Responsible Care® "Partner of the Year" award three times – in 2019, 2021, and 2022.

## Let our promise deliver for you.

Our agile network of people, facilities, and equipment is here to ensure that even your most challenging loads are delivered safely and on time. With the capacity to handle even last-minute logistics needs and an on-time performance record of over 98%, we provide innovative supply chain solutions that keep businesses moving forward.

So learn for yourself about the best-kept secret in the industry.

And experience what it means to have *Our Promise. Delivered.™*
